Product Description

Products Description

Griffonia Seed Extract is widely used in the pharmaceutical, nutraceutical, and dietary supplement industries. It is incorporated into formulations targeting mood enhancement, sleep support, and weight management products. Additionally, it is utilized in the development of supplements promoting overall emotional and mental wellness.

Function

Promotes mood balance and emotional well-being.

Supports healthy sleep patterns.

May aid in appetite control and weight management.

Acts as a natural serotonin booster.

Application

Griffonia Seed Extract is derived from the seeds of the Griffonia simplicifolia plant, native to West Africa. This natural extract is rich in 5-HTP (5-Hydroxytryptophan), a precursor to serotonin, known for its potential health benefits.
