Product Description

Basic Info.

Model NO.	Pterostilbene Powder
Color	White
Classification	Powder
Function	Nourishing and Balancing Nutrition
Appearance	Powder
Shelf Life	2 Years
Sample	Avaliable
Brand Name	KOMESZ
Packaging	25kg/Drum
Place of Origin	Shanghai, China, China
Transport Package	25kg Bag/Drum/Carton
Specification	USP/EP
Trademark	KOMESZ
Origin	China
Production Capacity	50000t Per Year

Product Description

Pterostilbene Powder is a natural compound found in blueberries, grapes, and certain other plants. It is a stilbenoid, a type of phytochemical with a chemical structure similar to resveratrol.

Function

Pterostilbene exhibits antioxidant, anti-inflammatory, and anticancer properties. It can activate various molecular pathways involved in cellular regulation, leading to potential health benefits. It also possesses neuroprotective effects and may help regulate blood sugar levels.

Application

1. Anti-aging and Longevity: Pterostilbene has gained attention for its potential role in promoting longevity and healthy aging. Its antioxidant properties help reduce oxidative stress, which is associated with aging and age-related diseases.
2. Heart Health: Pterostilbene may support heart health by reducing cholesterol levels, inhibiting inflammation in blood vessels, and promoting healthy blood pressure. It has shown potential in the prevention and management of cardiovascular diseases.
3. Brain Health: Pterostilbene exhibits neuroprotective effects and may help improve cognitive function and memory. It has been studied for its potential in reducing the risk of neurodegenerative disorders, such as Alzheimer's disease.
4. Skin Health: Pterostilbene's antioxidant and anti-inflammatory properties make it useful for skincare products. It helps protect the skin from damage caused by free radicals and may have anti-aging effects, improving skin elasticity and reducing the appearance of wrinkles.
