## Product Description

### Basic Info.

Model NO.	Green Coffee Bean Extract
Application Form	Injection, Lotion, Suppository, Paste, Tablet, Capsule
Application	Food, Health Care Products, Medicine
Certificate	Halal
Shelf Life	2 Years
Brand Name	KOMESZ
Cultivation Method	Artificial Planting
Part	Leaf
Extraction Type	Liquid-Solid Extraction
Packaging	Drum
Place of Origin	Shanghai, China, China
Production Capacity	50000t Per Year

green coffee bean extract beneficial for overall health and wellness.

### Application

**Weight Management:** Green Coffee Bean Extract is commonly used as a dietary supplement for weight management. It is believed to help promote fat loss by inhibiting the absorption of carbohydrates and enhancing fat metabolism. As such, it is often included in weight loss supplements and fat-burning formulations.

### Product Description

### Product Description

Green Coffee Bean Extract is derived from the unroasted seeds of the *Coffea arabica* or *Coffea robusta* plants. Unlike regular coffee beans, green coffee beans are not roasted, which helps preserve the natural compounds present in the beans. The extract is typically obtained through a solvent extraction process, resulting in a concentrated liquid or powder form.

### Function

Green Coffee Bean Extract is renowned for its numerous health benefits. It contains high levels of chlorogenic acids, which are potent antioxidants known for their ability to support weight loss, boost metabolism, and regulate blood sugar levels. These compounds also have anti-inflammatory and anti-aging properties, making
