# Agaricus Blazei Murill Extract Promoting Cardiovascular Health and Liver **Function**

### **Basic Information**

- Place of Origin:
- Brand Name:
- HALAL • Certification: • Minimum Order Quantity: 25 kg
- Price:
- Negotiable • Packaging Details: 25kg/bag or drum
- Delivery Time:
- Payment Terms:
- T/T, L/C • Supply Ability: 100 tons per month

### **Product Specification**

Our Product Introduction

# **Product Description**

Agaricus Blazei Murill Extract, derived from medicinal mushroom Agaricus blazei Murill, is a potent supplement known for its rich content of bioactive compounds. It is carefully processed to ensure optimal purity and efficacy. Our Agaricusi Murill Extract is produced using advanced extraction techniques, preserving the beneficial components of this remarkable mushroom.

### **Function**

The Agaricus Blazei Murill Extract offers a wide range of health benefits. Its bioactive compounds, such as polysaccharides, beta-glucans, and antioxidants, contribute to its immune-enhancing properties. The extract supports a healthy immune system response, helping the body defend against external threats and promoting overall well-being. Furthermore, it may assist in maintaining optimal cellular health, promoting vitality, and supporting the body's natural detoxification processes.

# Application

Agaricus Blazei Murill Extract can be used in various applications to harness its health-promoting qualities. It is commonly utilized as a dietary supplement, available in the form of capsules, tablets, or powders. Consuming the extract regularly can support immune function, provide antioxidant support, and promote overall wellness. Additionally, the extract can be incorporated into functional foods, beverages, or nutraceutical formulations to enhance their nutritional value and offer immune-boosting benefits.
