

Astragalus Root Extract Powder for Preventing and Treating Cardiovascular Diseases

Our Product Introduction

for more products please visit us on fdbcibotech.com

Basic Information

- Place of Origin: China
- Brand Name: KOMESZ
- Certification: HALAL
- Minimum Order Quantity: 25 kg
- Price: Negotiable
- Packaging Details: 25kg/bag or drum
- Delivery Time: 2 weeks
- Payment Terms: T/T, L/C
- Supply Ability: 100 tons per month

Product Specification

- Highlight: Astragalus Root Extract Powder, Cardiovascular Diseases Astragalus Root Extract

Product Description

Basic Info.

Model NO.	NY052
Application Form	Tablet, Capsule, Softgels, Tinctures, Liquids, Drops

Product Description

- 100% NATURAL PRODUCT: No artificial

Our Product

Application	Health Care Products, Medicine
State	Powder
Extract Source	Astragalus Root
Appearance	Brown Yellow Powder
Grade	Food Grade
CAS#	83207-58-3
Lead Time	5 Days
Transport Package	25kg/Drum
Specification	98%
Trademark	KOMESZ/ OEM
Origin	China
HS Code	1302199099
Production Capacity	3000kg/Year

colors or flavors

- Verified herb identity, confirmed highest quality of raw materials and the extract
- Best natural sources of herbs and raw materials: Every vendor is carefully picked to meet our high standards
- Third-party lab tested, All natural Astragalus root extract

It has the function of enhancing immunity, enhancing energy, anti-fatigue, anti-mutation, protecting liver and inhibiting osteoclasts. Astragalus polysaccharide has the effect of lowering blood lipids, that is, lowering cholesterol and triglyceride and increasing high density lipoprotein. It can prevent and treat cardiovascular and cerebrovascular diseases, such as atherosclerosis, coronary artery disease,

peripheral vascular disease and hyperlipidemia. Astragaloside can significantly reduce blood glucose, glycosylated hemoglobin and urinary protein, and reduce AGEs in renal cortex and serum, indicating that astragaloside has antioxidant effects, and has inhibitory effects on aldose reductase, as well as inhibiting mesangial cell proliferation and reducing renal hypertrophy. By adding appropriate excipients to astragaloside, oral preparations can be made, which can be used to prevent and treat diabetic nephropathy

Astragalus Extract

Astragalus is an herb traditionally used in Chinese medicine. The dried root of this herb is used in either tincture or capsule form. Astragalus is both an adaptogen, meaning it can help the body adapt to various stresses, and an antioxidant, meaning it can help the body fight free radicals. Because astragalus is often used in conjunction with other herbs, it has been difficult for researchers to pinpoint the exact benefits of the herb alone. There have been some research studies, however, that show that astragalus root extract may be beneficial to enhance the immune system, reduce chemotherapy side effects and reduce fatigue in athletes.

Heavy Metals			
Total Heavy Metals	≤10ppm	Complies	USP<231>method III
Arsenic (As)	≤2ppm	Complies	AAS(GB/T5009.11)
Lead (Pb)	≤2ppm	Complies	AAS(GB/T5009.12)
Cadmium(Cd)	≤0.2ppm	Complies	AAS(GB/T5009.15)
Mercury(Hg)	≤0.2ppm	Complies	AAS(GB/T5009.17)
Pesticides			
BHC	≤0.1ppm	Complies	USP<467>
DDT	≤1ppm	Complies	USP<467>
PCNB	≤0.1ppm	Complies	USP<467>
Microbiology			
Total Plate Count	≤1000cfu/g	Complies	CP2010&USP
Total Yeast & Mold	≤100cfu/g	Complies	CP2010&USP
E. Coli	Negative	Complies	CP2010&USP
Salmonella	Negative	Complies	CP2010&USP
