

Pure Weight Loss CAS 90045-23-1 Hca 60% Garcinia Combogia Extract Garcinia Extract

Our Product Introduction

Basic Information

- Place of Origin: china
- Brand Name: komesz
- Certification: HALAL
- Minimum Order Quantity: 20kg
- Packaging Details: 5kg
- Delivery Time: 5-8weeks
- Payment Terms: L/C, T/T

Product Specification

- Highlight: CAS 90045-23-1 Garcinia Extract,
60% Garcinia Extract,
Pure Weight Loss Garcinia Extract

BUILDING 5, NO 263, JIAHAO RD, NANXIANG TOWN, JIADING DISTRICT, SHANGHAI, CHINA

Model NO.	
Garcinia Extract	
EINECS	
208.1	
Packaging Material	
Plastic	
Storage Method	
Normal	
Shelf Life	
2years	
Nutrient Composition	
Mineral	
Resource	
Natural	
The content of active substances	
90%	
Transport Package	
1kg/Bag, 25kg/Drum	
Specification	
99%	
Trademark	
Greenway	
Origin	
Jiangsu, China	
HS Code	
2942000000	
Production Capacity	
500 Kilograms/Month	

Garcinia Combigia Extract

Product Name: Garcinia Combigia Extract
Latin Name: Garcinia Combigia L.
CAS. NO.:

90045-
23-1
Plant
Source:
Seed
Specific
ation:
60%
HCA
Appear
ance:
Greyish
white
powder
Test
Method:
HPLC

**Func
tion:**

1.
Contain
a large
amount
of HCA,
this
ingredie
nt can
inhibit
the
synthes
is of fat,
preventi
ng
glucose
from
synthes
izing fat
in vivo.
2.
Structur
es
similar
to citric
acid
inhibit
the
activity
of
enzyme
ATP-
Citrate
lyase
and
block
carbohy
drate
convers
ion into
excess
fat in
the
body.
3.
Promot
e fat
combust
ion in
the
body
and
convert
excess
energy
into
easily
consum
ed liver
sugar.
4. It
regulat

es the fat metabolism in the body and transfers the excess nutrients that are not consumed by the body as calories to be stored in the muscle and liver in the form of glycogen.

5. Increase liver and muscle capacity to store glycogen and reduce fat production.

6. If the storage of glycogen in the body increases, the body immediately supplies energy when it is in the body, and the natural response to hunger due to the decrease in blood sugar also decreases, so it has the effect of suppressing appetite.

Slowing

down
the
producti
on of
carbohy
drates
and
proteins
.

7. Heat
producti
on, can
burn
fat,
stimulat
e the
body's
function
, will
release
fat.

8.
Studies
have
shown
that
HCA
reduces
fat
formatio
n by
more
than
40%
within 8
to 12
hours
after
meal.

**Applic
ation:**

1. It
inhibits
the
accumu
lation of
fat as a
result of
consum
ption of
carbohy
drates
and
sugar.

2.It
activate
s the
process
of
thermo
genesis
.

3.It
neutrali
zes the
function
of the
enzyme
ATP
citrate
lyase,
thus
lowers
the fat
and
cholest
erol
accumu
lation.

4.It
increas
es
serotoni
n level
(a
neurotr
ansmitt
er) and
reduces
the
appetite
.

5.It
inhibits
the lipid
and
fatty
acid
synthes
is and
lowers
the
synthes
is of
triglyser
ides
and
LDL.

6.It
promot
es the
glycoge
n
storage
in liver
and
muscle
s.
