Product Description

Product Description

Product Description	<p>Gardenia yellow, also known as crocetin, is the yellow pigment in Gardenia jasminoides. Its yellow pigment component is carotenoid pigment, which is the same as saffron in saffron. Food grade gardenia yellow is an orange red liquid or yellow powder product. It has the advantages of strong coloring power, bright color, natural color, no odor, light resistance, good stability, color is not affected by pH, and has no toxic side effects on human body. It is a popular natural food additive in the world.</p>
Function	<p>1. Gardenia yellow can be used as coloring in the production of beverage, wine, cake, ice-cream, ice-lolly, preserved fruit, expansion food, jelly, flour cake, candy, etc.</p> <p>2. Liver protection and benefiting gallbladder.</p> <p>3. With the function of sedation, bleeding stanching, dispelling swelling.</p> <p>4. With the function of dispelling heat, eliminating irritability, diuretic, cooling blood and detoxification.</p> <p>5. With the function of treating cardiovascular diseases.</p>
Application	<p>Gardenia Yellow can inhibit the oxidation of 80% linoleic acid, so it can be used as an antioxidant in food processing</p> <p>Gardenia Yellow has excellent dyeing ability for protein and starch, and can be widely used in pastry, candy, flour, beverage, jelly, biscuit, ice cream and other foods. The dyeing property of gardenia yellow on silk fabric can be directly dyed.</p> <p>Gardenia Yellow can not only be colored with pigment ingredients, but also contain certain saffron acid with high medical value and high price, such as hematic, activating blood circulation, relieving fatigue, relieving pain and lowering blood pressure, which can be applied to the pharmaceutical industry.</p>
