

Wholesale Herb Extract Magnolia Bark Extract Pure Natural 90%-98% Honokiol / Magnolol

Our Product Introduction

for more products please visit us on fdcbiotech.com

Basic Information

- Place of Origin: China
- Brand Name: KOMESZ
- Certification: HALAL
- Minimum Order Quantity: 25 kg
- Price: Negotiable
- Packaging Details: 25kg/bag or drum
- Delivery Time: 2 weeks
- Payment Terms: T/T, L/C
- Supply Ability: 100 tons per month

Product Specification

- Grade: Food,A,Top Quality
- Type: Plant Extract
- Form: Powder
- Packaging: Drum,Bottle,Can
- Extraction Type: Solvent Extraction
- Appearance: White To Light Yellow Powder
- Test Method: Fine Powder, HPLC Or UV Or TLC Or GC
- Product Name: Magnolia Bark Extract
- Sample: Freely Offered,Available
- Shelf Life: 2 Years
- Specification: Food Grade
- Highlight: Pure Natural Herb Extract, 98% Herb Extract, Magnolia Bark Extract

Product Description

Introduction

Magnolol is a natural compound belonging to the family of polyphenolic compounds and is classified as a lignan. It is primarily derived from the bark and seed cones of various species of Magnolia trees, particularly *Magnolia officinalis* and *Magnolia obovata*. Magnolol has been recognized for its therapeutic properties and has been traditionally used in herbal medicine.

Function

1. Anti-Inflammatory and Antioxidant Properties:

- Magnolol is known for its potent anti-inflammatory effects, which can help mitigate inflammation associated with various conditions.
- It acts as an antioxidant, scavenging free radicals and protecting cells from oxidative stress, similar to carnosic acid.

2. Neuroprotective Effects:

- Studies suggest that magnolol may have neuroprotective properties, making it a potential candidate for the prevention or treatment of neurodegenerative diseases.
- Its ability to modulate oxidative stress and inflammation contributes to its neuroprotective function.

3. Antimicrobial Activity:

- Magnolol exhibits antimicrobial properties against a broad spectrum of microorganisms, including bacteria and fungi.
- This antimicrobial activity suggests potential applications in various products related to hygiene and health.

Application

1. Natural Anti-Inflammatory and Antioxidant
2. Cosmetic and Skincare Formulations
3. Neurological Health Supplements
4. Natural Preservative
5. Hygiene and Health Products
6. Animal Health Products
