Pomegranate is a very popular fruit. The fruit of the "Tree of Knowledge" mentioned in the biblical history of creation most probably was meant to be a pomegranate. With a growing history of 2000 years, Megranate is rich in vitamins and minerals. In addition, its husks and seeds are wildly used in Chinese Traditional Medicine. The interior of the pomegranate fruit is composed of many pink-red sections of pulp-like tissue, each of which contains a small seed grain. Pomegranate seeds are collected, dried, and processed for medicinal uses.
